TAFT RETURNS TO WASHINGTON

Faces a World of Trouble in National Capital.

TO DISCREDIT ADMINISTRATION

Cabinet Members Will Tell Him of Alleged Plot—Rumored That Attempt Will Be Made to Nominates Theodore Roosevelt for President on the Republican Ticket in 1912 Ballinger-Pinchot Controversy Has Broken Out Afresh.

Washington, Nov. 11.—President Taft returned to Washington to face a world of trouble.

What is alleged to be a plot to discredit his administration and nominate Theodore Roosevelt as the Republican presidential candidate in 1912 will be brought to his attention by members of his cabinet.

The situation in the state department having a bearing on the Chinese loan has assumed an acute phase, and to this question the president will at once address himself.

The controversy over the subject of the conservation of natural resources has broken out afresh, and it is freely admitted by leaders of the administration that the president will soon be presented with the alternative of dispensing with the services of Gifford Pinchot, chief forester of the government, or accepting the resignation of Richard A. Ballinger, secretary of the interior department.

The most sensational political development of the day is the report, given with great circumstantial detail, that friends of Theodore Roosevelt are determined that he shall lead his party in the national campaign of 1912.

Names Not Made Public.

While names are withheld, the inference is strong that this alleged movement has the support of men who were prominent in the former administration, among them James R. Garfield of Ohio, ex-secretary of the interior, Gifford Pinchot, and many others who either held good positions under Mr. Roosevelt or who were closely affiliated with him in a political way.

Back of the row over conservation, it is charged, is a force that augurs ill for Mr. Taft. It is said to be nothing more or less than a purpose to bring Mr. Roosevelt forward as an opponent of the president in the Republican national convention of 1912.

Certain members of Mr. Taft's cabinet believe the report connecting Mr. Roosevelt's name with the presidential nomination. While they admit that the movement is as yet unorganized and is not marked by concert of action on the part of forces that are believed to be determined to discredit the Taft administration, they view the outlook with a good deal of alarm.

Administration leaders who could be induced to discuss this subject were frank in expressions of belief that Mr. Roosevelt was not cognizant of the plans for his future that had been formed by zealous friends.

The situation as to the Chinese loan is a delicate one. It is known for a certainty that strong efforts are being made to secure the appointment of former Vice President Fairbanks as minister to China by persons interested in the Chinese loan. There is op-

position to the Indiana man, and no less a personage than Secretary of State Knox is said to be hostile to the ambition of Mr. Fairbanks to represent his country at Peking.

IN AVOIDING ONE TRAIN

Two Minnesota Boys Are Killed by Another.

Mankato, Minn., Nov. 11.—Leaping from the Omaha tracks near the foot of Vine street to avoid a train, Lee Foley, fifteen years old, and Paul Huettl, thirteen years, got in front of the Chicago and Northwestern passenger train from the west, were run down and instantly killed.

Foley was terribly mangled, but Huettl's only injury seemed to be to his skull.

Three young companions with them escaped unhurt.

FOURTEEN PERSONS KILLED

Runaway Freight Car Hits Crowded Passenger Car.

Vancouver, B. C., Nov. 11.—A runaway freight car crashed into a crowded passenger car on the British Columbia Electric Railway company's Interurban line. Fourteen persons were killed, including the motorman and conductor of the freight car. The passengers were mostly workmen. They were bound for New Westminster. Seven were injured, two perhaps fatally. Every person in the passenger car was killed or injured.

TACKLES CANAL ZONE PROBLEM

Government Wants Permanent White Population.

Washington, Nov. 11.—The government has tackled the problem of a permanent population for the Panama canal zone. It has chosen William A. Taylor, who is in charge of the field investigations in pomology, department of agriculture, and H. H. Bennett of the bureau of soils, to make a trip of inspection. They will leave Washington for the Isthmus Nov. 15. Mr. Taylor secured his early experience in fruit growing on a farm in Michigan.

The direct purpose in sending agricultural experts to the canal zone is to develop knowledge regarding crops which can be raised on the Isthmus in intensive farming. The canal zone is suited to tropical fruits, and will have the inestimable advantage that it will be on the main highway of the world.

Now this agricultural development of the Isthmus is important enough in itself, but from the national standpoint is of little consequence compared with the question of the permanent population of the canal zone.

The Isthmian canal zone presently will become the most strategic bit of dirt under the flag of the United States, if not in the whole world. Its possession, if insured to the United States under all contingencies, will mean the control of the Atlantic and Pacific. It will give the United States, in effect, two navies where it now has one. But if through the misfortunes of war that canal should go into hostile hands, it would become a doubly effective agency of this country's destruction.

Of course, soldiers will be there; lots of them. There will be 14-inch guns, too, mounted on disappearing carriages and sheltered behind hills of sand and concrete.

But the point with the United States is whether it cannot have also a patriotic auxiliary army close at hand. It would like to have the canal zone peopled with whites in whose hearts will be such fervor for the Stars and Stripes that, if trouble comes, they will rush to the canal's defense, at whatever risk to themselves. And such a citizen army, akin to the national guard of the states, would be a great steadying influence in times when the excitable South American temperament stirs up revolutions in the territory near at hand.

Makes Offer to Jeffries.

New York, Nov. 11.—William A. Brady, who formerly managed James J. Jeffries and James J. Corbett, has made an offer to give Jeffries \$10,000 as a gift if he will fight ten rounds with Al Kaufmann within ninety days.

Alcohol Kills Miner.

Tower, Minn., Nov. 11.—Gus Goske, a Finnish miner living at Soudan, died while on his way here. Goske was out hunting and he ran out of whiskey and drank a quart of alcohol.

MADE AGAINST SUGAR TRUST

Charges of Robbery Printed by the New York Sun.

STOLE MILLIONS OF DOLLARS

Combine Alleged to Have Fleeced the Government Out of an Enormous Amount of Money—Asserted That Speculations Have Been Going on for at Least Twenty Years—Federal Employees Also Accused.

New York, Nov. 11.—The Sun in an article covering the entire first page and a column and a half on the second page, declares the sugar trust has stolen \$30,000,000 from the United States. The introduction, which follows, covers briefly the main points of the detailed story:

"The sugar trust has stolen boldly and enormously from the United States treasury for at least twenty years. It stole with the assistance of officers employed by the United States. It was nursed and protected in its stealing by powerful politicians.

"The facts show that the sugar trust could not have stolen upwards of \$30,000,000 without the cognizance of treasury officials and the patronage of politicians.

"The same cargoes were weighed and underweighed. The trust paid freight on the actual weight. It paid duties on the underweight. It stole from 5 to 10 per cent of the duty on every cargo.

"The trust tried to blackmail the carriers of cargoes by pretended evaporation of sugar. It weakened when the carriers threatened to tell the truth. It succeeded in part of its blackmail, because the carriers feared they would be driven out of business.

"Shippers of sugar the world over knew of this robbery. Carriers knew it. Weighers knew it. Officials within the custom house itself must have known it. The sugar trust silenced revelations."

Special agents of the treasury department, it was learned, are investigating the importations and customs payments of the American Tobacco company, known as the Tobacco trust, and of Arbuckle brothers, sugar and coffee merchants.

By reason of a new regulation the examination of imported tobacco in the appraisers' stores in New York and also by the activity of a newly appointed examiner, the payments of duties by the tobacco trust have been increased \$100,000 in the past six weeks.

COMPROMISE BY MRS. EDDY

Trustees Issue a Statement Showing Settlement With Sons.

Boston, Nov. 11.—Effectually blocking a threatened war over the millions said to have been amassed by Mrs. Mary Baker Eddy as head of the Christian Science church, the trustees of the aged leader of the cult issued a statement in which she said her two sons, one adopted, have effected a compromise by which Mrs. Eddy will be free to leave her wealth as she chooses.

This sensation came at the conclusion of a long and bitter litigation, in the course of which Mrs. Eddy was forced to submit to an examination as to her sanity. The statement of the Eddy trustees reads:

"A family settlement between Mrs. Baker Eddy and George Glover, her son, and Ebenezer J. Foster Eddy (an adopted son), has been concluded, and the deeds evidencing the terms of settlement delivered. Under these arrangements, George W. Glover and his family receive \$245,000 and Ebenezer J. Foster Eddy, \$45,000. The sons, in receipt for this consideration, have agreed to relinquish all their rights, or prospective rights, or interest, in their mother's estate."

MacVeagh Backs Loeb.

Washington, Nov. 11.—Collector Loeb has the support of Secretary MacVeagh and the treasury department officials in his fight to clean out the crooks in the New York custom house. Mr. Loeb may promise immunity and the promise will be kept. Mr. Loeb may promote and the promotion will go. It makes no difference who the man or what he has done or why he is needed, or what led Mr. Loeb to do what he did.

Later Inauguration Favored.

Washington, Nov. 11.—The governors of all the states of the Union, with the exception of four—Connecticut, Georgia, Washington and Wyoming—are heartily in favor of changing the date for the inauguration of the president of the United States from March 4 to the last Thursday in April.

DARK HORSE WINS THE SENATORSHIP

F. L. Thompson Succeeds the Late Senator Johnson.

Bismarck, N. D., Nov. 11.—Passing all of the favorites in the United States senatorial race Fountain L. Thompson, a private citizen of Cando and a dark horse, won the prize in the stretch.

The appointment of Mr. Thompson to succeed the late Senator M. N. Johnson was announced from the governor's office.

Thompson was a comparative dark horse in the race. He has not been reckoned as among the leaders of the Democracy on the state, his activities having been largely confined to Towner county, where he has been a member of the board of township supervisors.

He is a close personal friend of the governor, and it is said that he was turned to as an appointee after it was seen that the Democratic leaders of the state were hopelessly divided as to a choice for the senatorship. His claims have been urged only within the past day or so by a delegation from Towner county, consisting of J. V. Brooke, Alex. Currie and Thomas Conyers.

Mr. Thompson was born in Scottsville, Ill., in 1854, and has lived in North Dakota twenty-one years as farmer, banker and land man.

TWO ROBBERS ARE CAPTURED

The Third Is Relieved to Have Been Killed.

Syracuse N. Y., Nov. 11.—An attempt to rob the New York Central train No. 24, the American Express, between Lyons and this city, was frustrated and two men were arrested at the point of guns. A third is believed to have fallen under the train and been killed.

The two men arrested said they were George Williams, aged eighteen, and Frank Brown, aged sixteen, and that they resided in Buffalo.

The American Express generally is laden with silks and other valuable goods consigned by shippers in New Orleans and other cities to New England merchants.

A car on the train was looted of several hundred dollars' worth of silks four weeks ago, and two weeks ago New York Central Detectives William Hennessy and Frank Boquard were ordered to ride the train between Buffalo and this city. Both were well armed.

When the train stopped at Lyons the detectives and Express Messenger Beard noticed three men with a large electric flash light walking along the tracks examining the cars. When they reached the car in which were the officers they mounted the steps and waited for the train to pull out.

The locomotive was soon speeding a mile a minute and the men with a skeleton key turned the lock. A large chain still held the door, and this was soon pulled from the woodwork by a clawhammer.

Two men entered the car and were quickly covered by the officers' guns and ordered to throw up their hands. Too surprised to move, they failed to obey. A second order was effective and the prisoners were shackled. A search was made for the third man, but no trace of him could be found.

What Does it Mean?

The crosses surrounded by a circle
which have appeared in the Daily
Dispatch for the last few evenings,
have excited no little questioning.

At one home it was the subject of
conversation at the breakfast table.
One member of the family said he was
sure it was a new breakfast food that
was being advertised. Another was
sure that it was a new show. Others
had other ideas but the real mean-
ing is being issued from the presses
of the Dispatch today and will be
circulated in the homes of the city
tomorrow.

URINARY TROUBLE IS ENDED

Just a Few Doses Now Will Make the
Entire Kidney and Urinary
System Act Fine

Usually sufferers from backache,
bladder trouble, or out-of-order kid-
neys, feel relieved after several doses
of Pape's Diuretic.

Misery in the back, sides or loins,
sick headache, inflamed or swollen
eyelids, nervousness, rheumatism and
darting pains, heart palpitations,
dizziness, sleeplessness, listless, worn-
out feeling, and other symptoms of
inactive, sluggish kidneys simply
vanish.

Uncontrollable urination (especially
at night) smarting, discolored water
and all bladder misery ends.

Feeling miserable and worried is
needless because this unusual prepara-
tion goes at once to the out-of-order
kidneys and bladder, distributing its
cleansing, healing and vitalizing in-
fluence directly upon the organs and
glands affected and completes the
cure before you realize it. The mo-
ment you suspect any kidney or uri-
nary derangement, or feel rheuma-
tism, begin taking this harmless medi-
cine with the knowledge that there
is no other remedy at any price, any
where else in the world, which will
effect so thorough and prompt a cure
as a fifty-cent treatment of Pape's
Diuretic, which any druggist can
supply.

Only curative results can come
from taking Pape's Diuretic, and a
few days' treatment means clean,
active, healthy kidneys, bladder and
urinary organs—and you feel fine.

Your physician, pharmacist, banker
or any mercantile agency will tell
you that Pape, Thompson & Pape,
of Cincinnati, is a large and responsible
medicine concern, thoroughly worthy
of your confidence.

CASE DRAGGING ALONG

Assault Case in Municipal Court is Making Slow Progress and Will Not Close Today

The case against the four young men charged with assaulting Arthur Stinehagen is progressing very slowly. After waiting for some time one of the witnesses for the state is forenoon the court adjourned until 2 o'clock this afternoon. The defendants are defended by M. E. Ryan, H. Crowell and Giles O'Brien and it is said that the defense is that Stinehagen was the aggressor during the entire row. When court convened this afternoon the evidence of the state was not yet all in.

From Arctic to Tropics
in Ten Minutes

No oil heater has a higher efficiency or greater heating power than the

**PERFECTION
Oil Heater**

(Equipped with Smokeless Device)

With it you can go from the cold of the Arctic to the warmth of the Tropics in 10 minutes.

The new

Automatic Smokeless Device

prevents smoking. There is no possible question about it. This means greater heat-power, a more rapid diffusion of heat and a sure conversion of all the heat-energy in the oil.

In a cold room, light the heater and in 10 minutes you'll have a glowing heat that carries full content.

Turn the wick up as high as it will go—no smoke—no odor.

In everything that appeals to the provident and the fastidious, the Perfection Oil Heater, with its new automatic smokeless device, decisively leads. Finished in Nickel or Japan in various styles.

NEW MACHINERY

Rogers-Brown Ore Company Will Expend that Amount this Winter for Their New Shaft

TAKE TRIP AROUND WORLD

Mr. and Mrs. Cuyler Adams Will Leave Last of Week for Four Months Tour of World

Deerwood, Minn., November 10.—The Rogers-Brown Ore company is urging the Cuyuna Iron Range Railroad Company to make the best possible speed in completing its track to Cuyuna. The reason for this urgency is that the Rogers-Brown Ore Company has a large amount of heavy machinery purchased for the equipment of the second shaft of the Kennedy mine at Cuyuna, which will be impossible to haul from Deerwood to the mine and so work on the new shaft will be delayed until this machinery can be brought to the mine by train. This equipment includes four boilers each of 150 horse power, giving them a combined capacity of 600 horse power. These will be installed in a steel boiler house. Cuyler Adams, in speaking of the plant being put in at the Kennedy mine stated that there will not be a better equipped mine in the Minnesota or Michigan iron fields than will the Kennedy mine be when the equipment is installed. They are urging speed on the railroad work that they may be in shape to commence shipping ore early next season.

Mr. and Mrs. Cuyler Adams have received a long letter from Prof. C. K. Leith, with whom their son, F. S. Adams spent the summer doing geological work in northern Labrador. Prof. Leith, together with Hugh Roberts, of Superior, C. E. Leith, of Madison, Wis., a brother of Prof. Leith, and Mr. Adams left civilization early last summer expecting to return this fall. They had bad luck and lost all but one of their canoes in various mishaps. It was absolutely necessary that Prof. Leith and Mr. Roberts should come at once, as the canoe would only carry two. Mr. Adams and C. E. Leith were obliged to remain at Whaler Bay, a small settlement on James Bay. They will remain there until the annual dog train goes up this winter with the mail. This train leaves Montreal shortly before Christmas and arrives at Whaler Bay late in January. On its return trip it will reach Montreal about the last of February. The journey overland for the two traveling alone would not be safe and this will be the first opportunity of the young men to return to civilization.

Mr. and Mrs. Cuyler Adams will leave the last of the week for a trip around the world. They will sail from New York for England and take one of the Union Castle line steamers to Africa. They will visit the great Albert and Victoria Nyanza falls, and will traverse by rail the portion of Africa in which Roosevelt is hunting. From Africa they will visit New Zealand and Australian ports and will return to their home next April, coming via the Pacific coast. Many friends in Deerwood wish them a pleasant journey and a safe return.

The carpenter work on the Dam-

kruger hotel has been commenced and if weather permits the frame will be rushed up in a very short time.

Dr. Wm. Reid was in Brainerd Monday attending the Upper Mississippi Valley Medical Association and listening to the lecture by Dr. McCormack.

Martin Seavy, of Bay Lake, purchased two lots right west of Mrs. Bartens' residence of F. L. Pitts today. Mr. Seavy will improve the lots with a fine residence at once.

Range Camp, Woodmen of the World installed officers at the Odd Fellow's hall Saturday night. A number of the Brainerd team were up and a very enjoyable evening was spent.

F. A. Edson is expected home tonight from a trip to Duluth on business.

Douglas Archibald has accepted a position as clerk in the Cuyuna State bank and commenced his new duties yesterday.

The grading has been finished at the North end of the overhead bridge and Mr. Damkruger has his crew at work on the south approach at present.

The carpenters have nearly completed the repairs on the Northern Pacific depot and the painters are now at work. The new ladies' waiting room has been decorated with ingrain paper and the exterior of the depot is being treated to a fresh coat of paint. These improvements, with the new umbrella shed and added platform room, will enable the depot to accommodate the traveling public, which it has scarcely been able to do for the past year or more.

Geo. M. Huss was here from Atkin between trains today looking after matters pertaining to the Cuyuna Range railroad.

Charles Johnson is erecting a residence on lots recently purchased by him in Archibald's addition.

The telephone girls wish the Dispatch to announce the hours during which the exchange is in operation since the exchange got in its new quarters. It will be open from 7 a. m. to 10 p. m. on week days and from 9 a. m. to 6 p. m. on Sundays.

L. W. Thabes, of Brainerd, has just completed the work of plastering R. B. Coffin's new residence.

T. J. King, of Brainerd, was in Deerwood this afternoon on business.

Chas. H. Adams is moving some of his household goods into the Lichter place across the track from the property he sold to C. J. Oberg. The Oberg brothers are moving a couple of the cottages together to make a bungalow for the use of themselves and their clerks. They will have cosy quarters when completed.

Miss Emma C. Olson, stenographer for the Rogers-Brown Ore Co., spent Saturday and Sunday with friends in Minneapolis, returning home Monday morning.

Miss Margaret Torgeson is taking her annual vacation from her work in H. J. Hage's store. She expects to spend a portion of the time visiting Miss Inga Malvek at Farm Island lake.

For a first-class line of underwear go to Hage's.

G. A. Oberg was down from McGregor Sunday to visit friends and relatives at Deerwood.

Did You See

*The Man who wore the well fitting coat and the shabby trousers?
Looked ridiculous, didn't he?*

*and the Other Fellow with the well fitting trousers and shabby coat?
Looked pretty good?—Certainly*

WHY WAS THIS?

It simply goes to show that a man's trousers must fit well if he wishes to dress well. A man's trousers must fit his form, otherwise they will not hang well.

That is why trouser making is becoming a profession in itself. The best trousers today are made by tailoring houses who specialize in this one line.

We handle only the best trousers from the country's best makers.

We can fit the long man and the short man, the nobby dresser or the more staid business man and fit them all properly. Trousers of modest pretensions or trousers of luxury—trousers for dress or trousers for work.

Fire Damages Hospital.
Duluth, Nov. 11.—Fire gutted the West Duluth hospital and three stores and badly damaged three others at Central avenue and Bristol street. The loss will be about \$45,000, about one-third covered by insurance. No lives were lost and none was injured. The patients in the hospital were carried out safely.

Making Good.
There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When one gives a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equaled.
